Since beginning an active practice in Alternative Dispute Resolution in 2014, Mary Jo Gilsdorf has served as an Arbitrator in over 200 cases and have successfully mediated over 170 matters with over an 80% success rate in a variety of construction, commercial and consumer cases. Currently serving on several Alternative Dispute Resolution Panels as an Arbitrator and Mediator handling matters involving construction, breach of contract, real estate, personal injury, business dissolution, legal fees, landlord-tenant, mortgage foreclosure, consumer, and other commercial disputes. Additional extensive experience with complex contract negotiations, real estate transactions, insurance coverage, third party bodily injury claims, commercial litigation, pipeline royalty claims, consumer claims and environmental law. Available to serve on one of the panels noted below or privately, either in person or virtually.

Although Mary Jo has broad experience in commercial matters, she has a deep experience and knowledge of the Construction Industry. In 1997, she began as a generalist in a small construction firm and gained broad based experience performing duties as a contract administrator, assistant project manager and general assistant for estimating, field supervision and safety. Moving to a large regional construction management firm, she became a cost engineer analyzing cost entitlement and valuation issues and then assumed the sole in-house counsel role. Prepared, navigated, negotiated, and resolved claims with subcontractors, owners and design professionals beginning my ADR experience while employed there for over 12 years. Through this varied industry hands-on exposure, gained significant experience with proceedings that involved all tiers in the construction: subcontractor, supplier, contractor, construction manager, owner and design professionals.

Representative ADR proceedings in construction have concerned both residential and commercial construction matters involving a variety of subject matters such as Construction Defect Claims involving structural issues, exterior cladding issues (stucco /EIFS, roofing), HVAC and flooring issues among others, Performance and Payment Bond Issues, Scheduling Issues and Delay Claims, Breach of Contract, Wrongful Termination Issues, Cost and Change Order Entitlement and Valuation, Payment Act Claims, Consumer Protection Act Claims related to construction, Concealed Conditions Claims, Coordination Disputes, Construction Defect Issues, Design Errors and Omissions, Professional Liability involving alleged Design Errors and Omissions along with disputes involving Coordination and Building Information Modeling
