

Stephen L. Weber, Esq.

Phoenix, Arizona

Full Time Neutral Specializing in Construction Disputes

Current Employer-Title	Weber Law Firm PLLC SLW Engineering
Profession	Full time neutral, Attorney, Arbitrator, Mediator, Judge Pro Tempore, Engineer, Executive, General Contractor
Work History	Engineer and Owner, SLW Engineering, 1985 – Present; Owner, The Weber Law Firm PLLC, 2020 - Present; Managing Partner, Kasdan LippSmith Weber Turner LLP, 2001 – 2019; Partner, Berger Kahn Law Firm, 1994 – 2001; President, Blueridge Construction Inc., 1983 – 1991.
Experience	Over 40 years of experience in construction and design and over 25 years of experience as a trial lawyer. Licensed civil engineer specializing in structural design and former general building contractor with extensive experience in construction, construction design, structural engineering, and construction litigation. Has been the engineer of record and/or general contractor on over 500 projects ranging from high end custom homes to commercial/industrial buildings. Also has extensive experience representing both plaintiffs and defendants in complex civil litigation matters including numerous trials and arbitrations. Clients have included building owners, homeowners, homeowners' associations, municipalities, developers, engineers, subcontractors and general contractors. Has represented owners, developers, subcontractors or engineers in cases including single family residential, condominiums, high rise construction, commercial, churches, public buildings and infra-structure. Has also represented major insurance carriers in both first-party and third-party property damage and liability claims, including numerous appraisals and arbitrations following the Northridge, California earthquake. Experienced as counsel, mediator, and arbitrator in contract disputes related to business operation, dissolution, and construction. Trial/arbitration verdicts and awards have ranged

from "defense" verdicts in defense of claims to obtaining Plaintiff verdicts of over 10 million dollars. Has twice been recognized for obtaining "top ten" jury verdicts of the year in Arizona. Rated as an AV Preeminent attorney by Martindale-Hubbell.

Mediator Experience

With a background as a building contractor, civil engineer specializing in structural design, and construction litigator, experience has focused on construction dispute mediations including large complex multi-party mediations with multiple plaintiffs and multiple defendants. Ninety-five percent of mediations have involved construction disputes ranging from multi-party tract and custom home to commercial and industrial buildings, both during construction and after completion. Disputes have also included prompt pay act disputes, change order, RFI and delay claims. Has participated as counsel in over 250 complex multi-party mediations in multiple states.

General ADR Experience

Arbitrator in numerous cases involving construction and/or real estate matters with amounts in controversy ranging from less than \$100,000 to several million dollars. Has served as both a single arbitrator and on three arbitrator panels. Extensive experience as counsel in arbitrations involving construction defect claims, insurance loss claims and earthquake claims. Arbitrations have ranged from single day hearings to eight-month hearings and everything in-between.

Served as a judge pro tempore in Maricopa County handling alternative dispute resolution matters including mandatory settlement conferences and short trials. Previously served as an arbitrator in automotive lemon law claims in California for the Better Business Bureau.

Representative Issues Handled as a Mediator

As related to construction mediations, have handled insurance coverage disputes, additional insured issues, apportionment of damages in multi-party mediations, assessment of expert reports, and delay claims in addition to the typical construction issues.

Mediator Style & Process Preferences

I understand the business of construction, the design and engineering aspects, owner issues, and both the general contractor and subcontractor issues. I also recognize that for some of the participants there is a desire to be heard regarding emotional issues. I approach each mediation with an intent to make all parties comfortable with the process and respect any confidential information conveyed. I encourage the exchange of mediation briefs with an option for supplemental confidential briefs to the mediator. Because of my experience as a trial lawyer, including successfully trying at least one of the largest construction defect trials ever in Maricopa County, as well as

many other construction trials, and my experience as an engineer and general contractor, I can, when requested, offer evaluations of the various parties' positions, risks, and expectations. Many of my past mediations were successful because of these evaluations.

Technology Proficiency Very familiar with Zoom and willing to conduct mediations via Zoom.

Education Western State University, College of Law (JD, Magna Cum Laude-1996); University of Southern California (BS-1978).

Professional Licenses Admitted to the Bar: Hawaii (2017), New Mexico (2017), Arizona (2004), California (1996); U.S. District Court: Central District of California (1996), District of Arizona (2008), District of New Mexico (2017); U.S. Court of Appeals, Ninth Circuit (2010); U.S. Supreme Court (2011).
